"Ugly rumors" a person can hear about public men and office-holders as well as private individuals almost every day of the year, and the editor of the Advocate doubtless hears many of them. Let him publish a few of them and he will certainly find out what the word "reference" means.

The Advocate further says: We did not say in our last issue what

We did not say in our last issue what the editor of the Intelligencer makes us say, and if we had said it, any man who has sense enough to understand the meaning of his mother tongue ought to know that a charge made against an individual church member is not a slander on an entire denomination, and if he can't comprehend such a proposition as that he ought to go back to college and graduate a time or two more before undertaking to edit a paper.

As the editor has refused to give us the name of the Baptist who "drinks and gambles." the natural inference is that e is striking at the denomination. Specify the individual member, and the Advocate clears itself of any charge against the entire denomination. Maybe we have "not sense enough to under stand the mother tongue." for the simple reason, perhaps, that neither of the editors of the Intelligences ever had the good fortune to attend any institution of learning higher than a common school. But we are vain enough, at least, to think that we know a little about editing a paper. At any rate we need no advice in that respect from the College-graduate-

Our young friend A. L. There is a mixed base ball club at this place composed of both white and blacks. When a white man gets so low as to wrestle with a negro we think it is time for the curtain to fall and "leave them alone in their glory," and so does the respectable, law-abiding colored people, the writer having heard several of them say that both white and blacks are out of their place when playing ball together, and I could not but respect them in their opinion. Suppose these young white mea (and they are not all so young) were to see their mothers, wives, sisters or the young ladies they are accustomed to calling on, playing cards or croquet with these same black mens' wives or daughters. What would they say? Ah! I know "there would be war in the camp."

I shall take his statements in the order they were made, and I shall convict him of falsehood in regard to the first out of his own mouth;

"At Aiken two years ago I said Hampton ought to be in the United States Senate forever, and that I was willing for him to stay there."

"At Aiken he refused to ride in the carriage with me," and yet, after my having done so, he that day, in his speech, made the declaration as to,my remaining in the Senate! Yet he now gives that as one reason why he subsequently opposed my re-election. e subsequently opposed my re-election.

Now, as to the facts in reference to my efusal to ride to the meeting in the carriage with him: I was the guest of one of the members of the Executive Committee,

who had invited me to ride with him, and his invitation had been accepted, as I courteously informed Mr. Tillman when he asked me to drive with him: and, beides this, I have yet to learn that the new regime now prevailing in South Carolina orbids a gentleman to choose his own associates or companions.

The Governor proceeds to say, "But he had no business to interfere in this fami-waiving this question, I assert, without fear of contradiction, that at the meeting

I came at the request of my old constituents of Richland to plead for peace and harmony, I expressed no preference for any candidate, no disapproval of any, and I appeal to the report of my speech on that occasion, as published, to substantiate my assertion and to prove the falsity of the charge made by Governor Tillman.

I did nothing of the sort. I warned our people, as I thought my long service in their behalf justified me of doing, of the dangers of division and dissension in our ranks, and I illustrated my warning by calling attention to the terrible consequences which had befallen Virginia by the converse in the Democratic ranks.

quences which had befallen Virginia by the quarrel in the Democratic ranks, brought about by the unscrupulous conduct of Mahone. So much for that charge of the Governor, which, like so many of his on other occasions, proves to be utterly false.

"I will tell you," proceeds the Governor, "where he now is. He is in retirement, where he belongs and where he ought to be. * * Hampton has taught us that an Independent was worse than a Radical. That depended whether the Independent was his friend or not. If Hampton had simply said that an Inde-Lampton had simply said that an Inde-endent was still worse than a Radical and that he stood to what he said, he would be in the United States Senate to-day." I beg to assure his "Excellency" that I stand by and reiterate what I said about Independents in our State, and he must pardon me when I say in perfect frankness that I regarded him as an Independent when he "suggested" himself as a gubernatorial candidate in the famous March Convention, and I held then, as I do now, that he and his followers there should have been ruled at once out of the Democratic party. This, however, was not done, and as the Democratic Execu-
